# Lab 7 – Mobile UI Design

**E-commerce website Design**

# Assignment 1

Connect the desktop interfaces to complete the user flow that you built in the lab 2.

# Assignment 2

Design the mobile UI for the following pages:

- Home Page
- Category Page

# 1. Home Page

A client want to build an e-commerce website. Requirements are described below:

- Products consists of perfume, cosmetic, lipstick, skin care products,...
- The Header has to show hotline, address, search box, shopping cart
- Menu: Home, Product Categories, About Us, Contact Us, Blogs
- Sections: Best Seller, Promotion (sale off), products of each category, news (blogs), payment Methods, support, Fan Page, slogan
- Footer: quick links, short introduction about company, copyright.

## 2. Category Page

- The page is used to show all products of one category.
- You need to use pagination if the category contains too many products.
